

*“A new management plan for Hazelhead Park was devised with Aberdeen City Council to promote the long term prospects of red squirrels living in the park”*

Aberdeen City Council want  
to re-zone the Grove  
Nursery Hazlehead from:  
“Sporting / Recreational” to:  
“Industrial”

***We say NO!***

*Siting the proposed  
recycling centre at  
the Grove Nursery is  
wholly inappropriate*

*Let's see why...?*

Did you know that Aberdeen City Council  
has just adopted its new Nature  
Conservation Strategy for the City of  
Aberdeen...?

*With an aim to:*

*“To conserve Aberdeen City’s natural  
heritage for the benefit of our biodiversity,  
citizens and visitors, for current and future  
generations”*

*... this beautifully  
crafted document  
speaks for itself...*

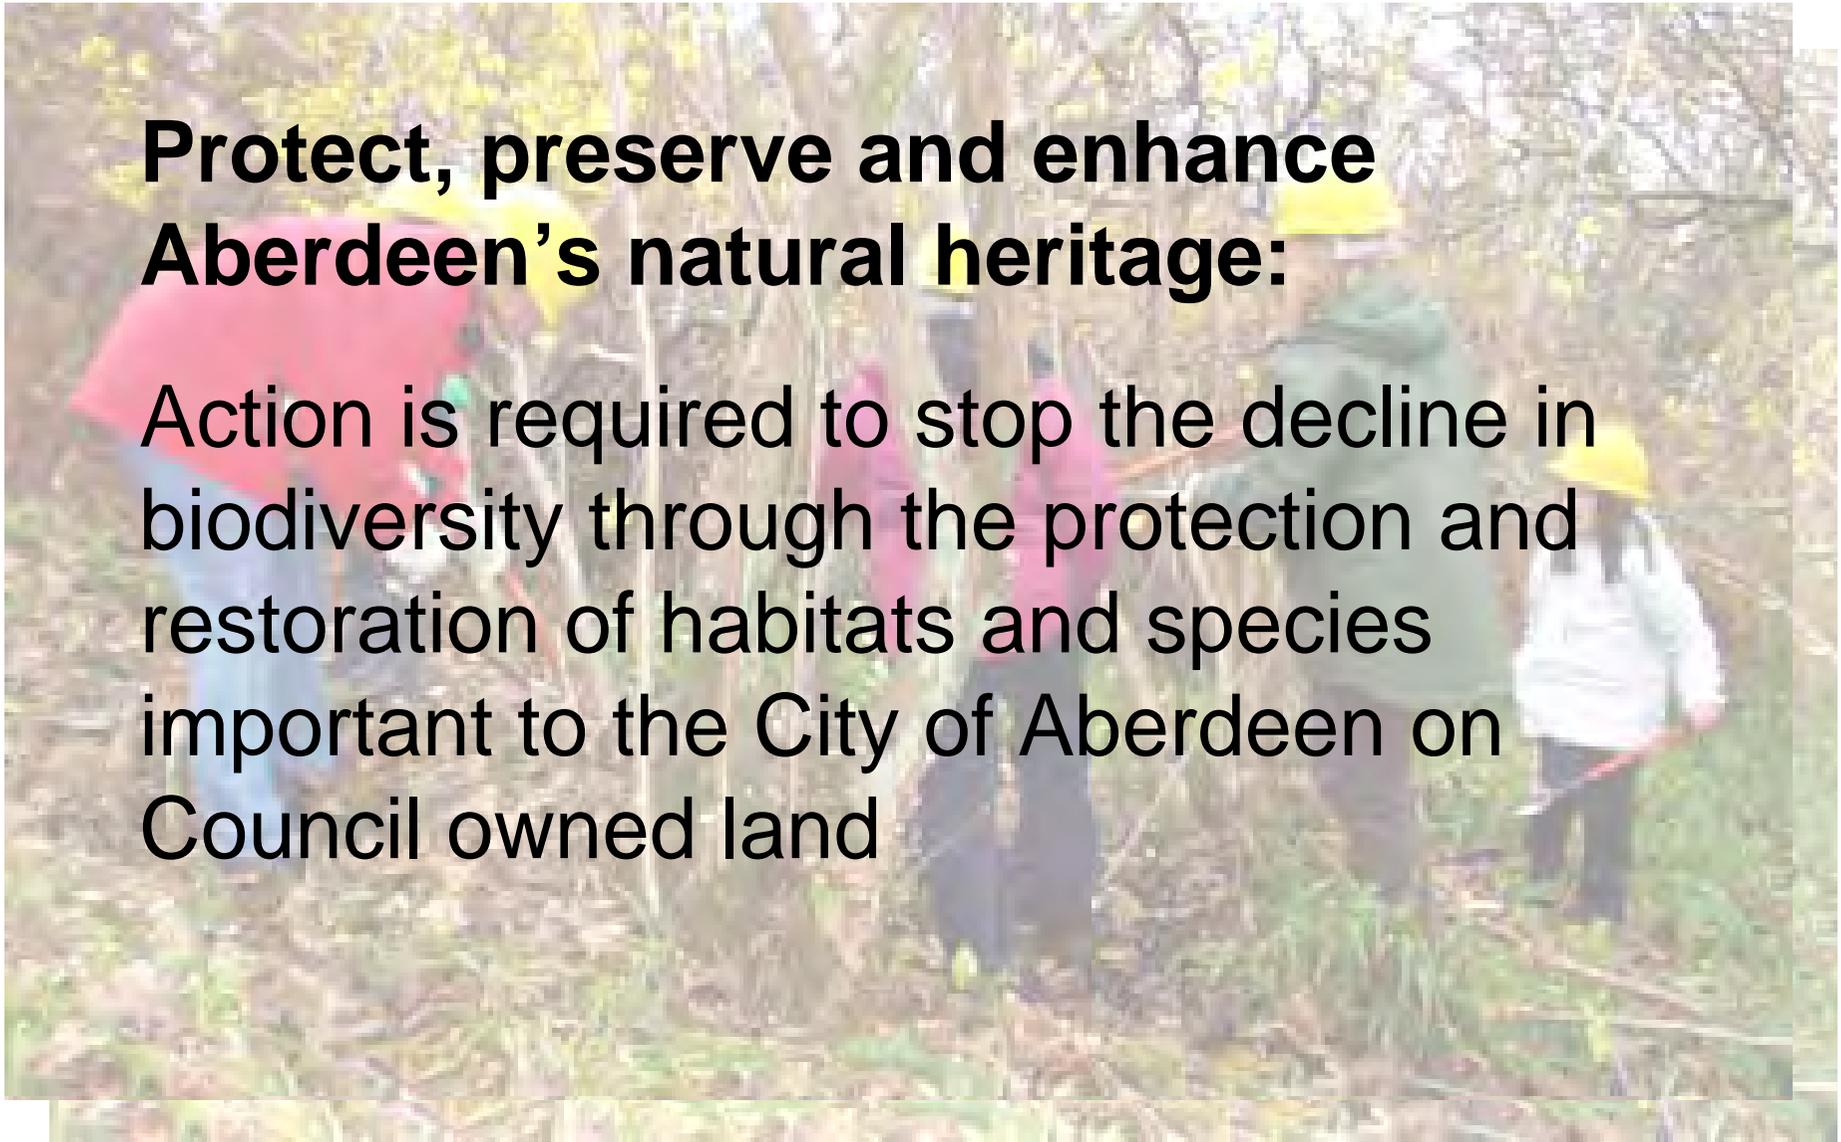

The Aberdeen City Council  
Nature Conservation Strategy  
2010-2015

# *Our Objectives (1)...*

**Protect, preserve and enhance  
Aberdeen's natural heritage:**

Action is required to stop the decline in biodiversity through the protection and restoration of habitats and species important to the City of Aberdeen on Council owned land

## *Our Objectives (2)...*

### **Sustainably manage Aberdeen's natural heritage:**

The Council needs to plan and manage the use of its own land in a way that assists in reversing the decline in biodiversity. The Council should also take up opportunities to encourage private land owners to do the same

## *Our Objectives (3)...*

**Involve communities in caring for Aberdeen's natural heritage:**

To make people aware of the importance and benefits of nature conservation, the Council needs to engage with everyone and get them involved at a local level

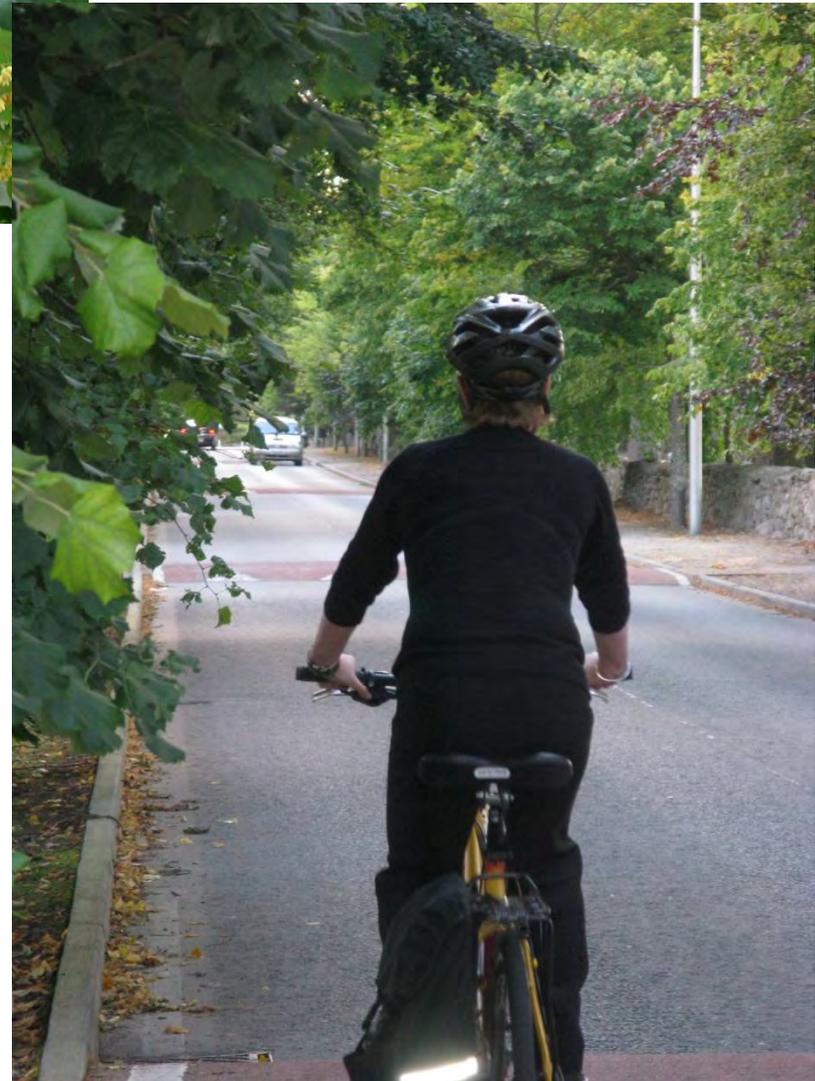

## *Our Objectives (4)...*

**Promote a greater understanding, appreciation and enjoyment of Aberdeen's natural heritage:**

Being informed will improve knowledge and enhance people's experience of nature while at the same time help promote awareness and respect for the City's natural heritage

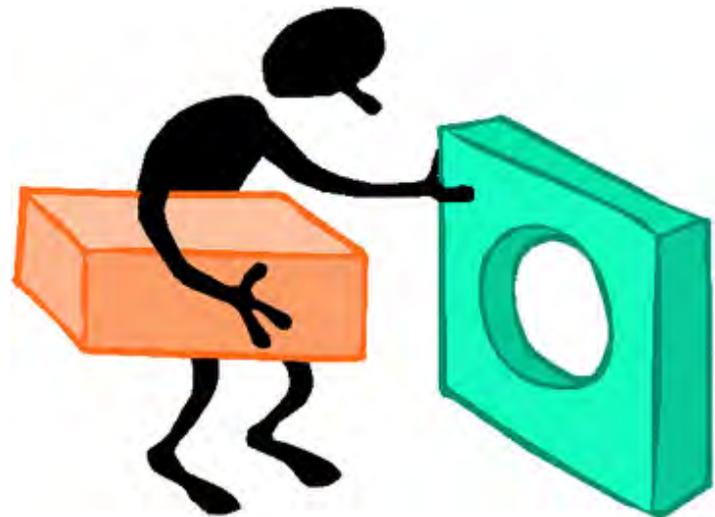

*“I was simply cycling up  
Hazlehead Avenue the  
other morning, being  
gently intoxicated by  
the fragrance of the  
flowering limes....  
.... just thinking....  
I wish this could last....  
forever....”*

## Ever wondered what an oxymoron was ...?

*“This year, 2010, is officially the International Year of Biodiversity; a time when the importance of life on earth and the value of biodiversity for our lives are being celebrated. It is, therefore, fitting that Aberdeen City Council has just adopted its new Nature Conservation Strategy for the City of Aberdeen”* [Councillor Aileen Malone Nature Conservation Strategy 2010 – 2015]

*“...the northwest corner of the Grove Nursery Site is considered to be the best available site for a new Recycling Centre serving the citizens of the west of Aberdeen”* [Peter Laurence Report H&E 10/009]

*Something smells fishy...!*

**The following few frames highlights many of the curious conclusions made in this report**

ABERDEEN CITY COUNCIL

---

HOUSING AND ENVIRONMENT COMMITTEE: 13 April 2010

CORPORATE DIRECTOR: Pete Leonard

TITLE OF REPORT: Location for West of City Recycling Centre

REPORT NUMBER: H&E/10/009

---

**1. PURPOSE OF REPORT**

The purpose of the report is to outline the results of a consultation exercise relating to potential sites for a new Recycling Centre in the west of the city and to request that committee selects a preferred site for the Recycling Centre.

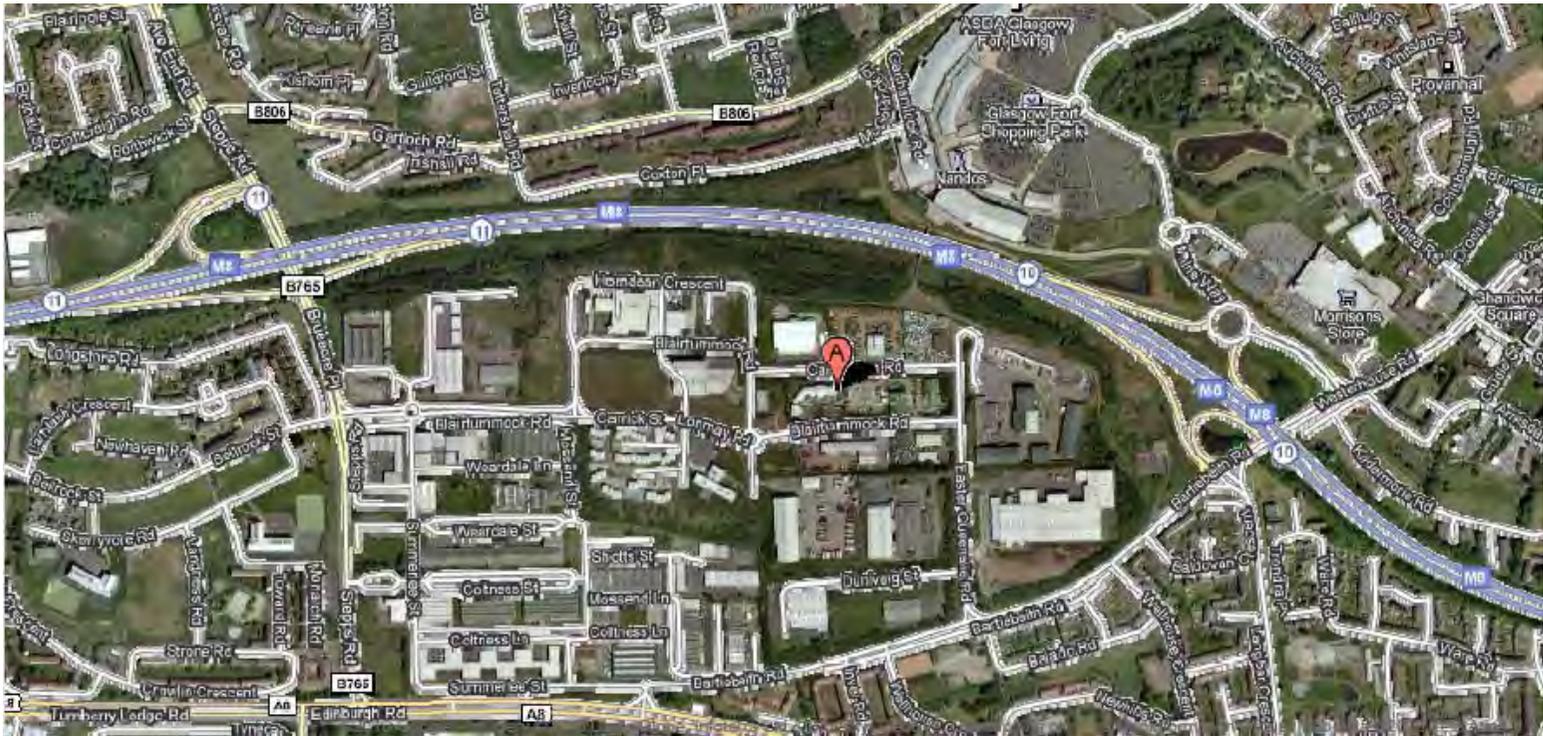

Photos of examples are misleading (P357) – both sites illustrated are in heavily “industrialised” locations

The location of this (rather sanitized) picture from Mr Lawrence’s report...

... is actually here... In an industrial park in Neath – Wales!

*This example is in an industrial site in Glasgow*

*Hazlehead is not an  
industrial zone*

Academy

Playing  
Fields

(New) Hazlehead  
Primary School

Golf  
Club

Car Parks  
& entrance  
to the Park

**Grove Nursery – proposed  
location for recycling plant**

**Extract from Report:  
H&E/10/009**

Quote (P358): *“That the area of the Langstracht is regarded as the preferred area within the west of the city, with the Whitemyres Industrial Estate seen as the best location of all”.*

**WHY NOT MAKE IT HAPPEN  
THERE - THEN?**

**Extract from Report:  
H&E/10/009**

Re Hazlehead Caravan Park (P360): quote:  
*“Notwithstanding any proposed mitigation measures, it is likely that there will be strong public opposition to this site which may adversely affect the ability to secure planning permission”*

**WHY ANY DIFFERENCE TO  
THE GROVE NURSERY...?**

**Extract from Report:  
H&E/10/009**

Quote (P361): *“In conclusion, none of the sites identified satisfy all of the criteria for a Recycling Centre”*

**IN WHICH CASE – LOOK  
ELSEWHERE!**

**The summary sheet (P363) “Site of environmental designation” has a score of “1” for all sites ... a little disingenuous perhaps as there is surely an environmental distinction between an industrial site (Whitemyres) and a recreational site (eg Hazlehead)?**

**Table 1. Sites for West of City Recycling Centre – Summary Sheet**

Criteria	Sites for Consideration												Score				
	Kingswells Park and Ride	Adjacent Kingswells	Hazledene Road	Pinewood	Grove Nursery Hazlehead	Hazlehead Caravan Park	Hazlehead Bus Park	Summerhill	Rousay Drive	Whitemyres Estate	Greenferns	Greenhill	1	2	3	4	5
Size (minimum 0.75 acre)	1	1	1	1	1	1	1	1	2	1	1	1	Large				Small

<b>Total</b>	<b>26</b>	<b>24</b>	<b>25</b>	<b>26</b>	<b>19</b>	<b>18</b>	<b>22</b>	<b>20</b>	<b>25</b>	<b>22</b>	<b>20</b>	<b>22</b>					

**Extract from Report:  
H&E/10/009**

At the Consultation Workshop (P369) on 5<sup>th</sup> March 2010 there was a notable imbalance of representation from potentially affected Community Councils – three from the Kingswells CC, and one from Braeside and Mannofield with no other Community Councils being part of what was surely a critical consultation.

## At that same meeting the quote....

*“Due to potential noise and increase in traffic – likely to be a great deal of resistance from Kingswells residents”*

...might well equally apply to Hazlehead (if their presence was sought for the consultation)

***Just a weekend's traffic on Hazlehead Avenue..***

# When it comes to Whitemyres (P371):

*“Excellent location due to road network and location” then ...  
“Current tenants of Council owned lots are not interested in ending the tenancies”*

– this predicament did not stop ACC giving White Space (Frederick Street) occupants 60 days notice to quit when they wanted the site for their own particular purposes!

# The response matrix from Mrs Butler representing the Ashley & Broomhill CC (P373) ...

...clearly identified the Grove Nursery as the **least** appropriate site...

Response from Mrs J Butler on behalf of Ashley and Broomhill Community Council

*Taken from J. Butler (Chair) Ashley & Broomhill CC - Response date extended 5/10/11*

Potential Sites for West of City Recycling Centre - Summary Sheet

Criteria	Sites for Consideration											
	Kingswells Park and Ride	Adjacent Kingswells	Hazledene Road	Hazlehead Nursery	Hazlehead Caravan Park	Summerhill	Whitemyres Estate	Rousay Drive	Greenfens	Granitehill		
Size (minimum 0.75 acre)

Low				High
No				Yes
Deliverable				Blockade

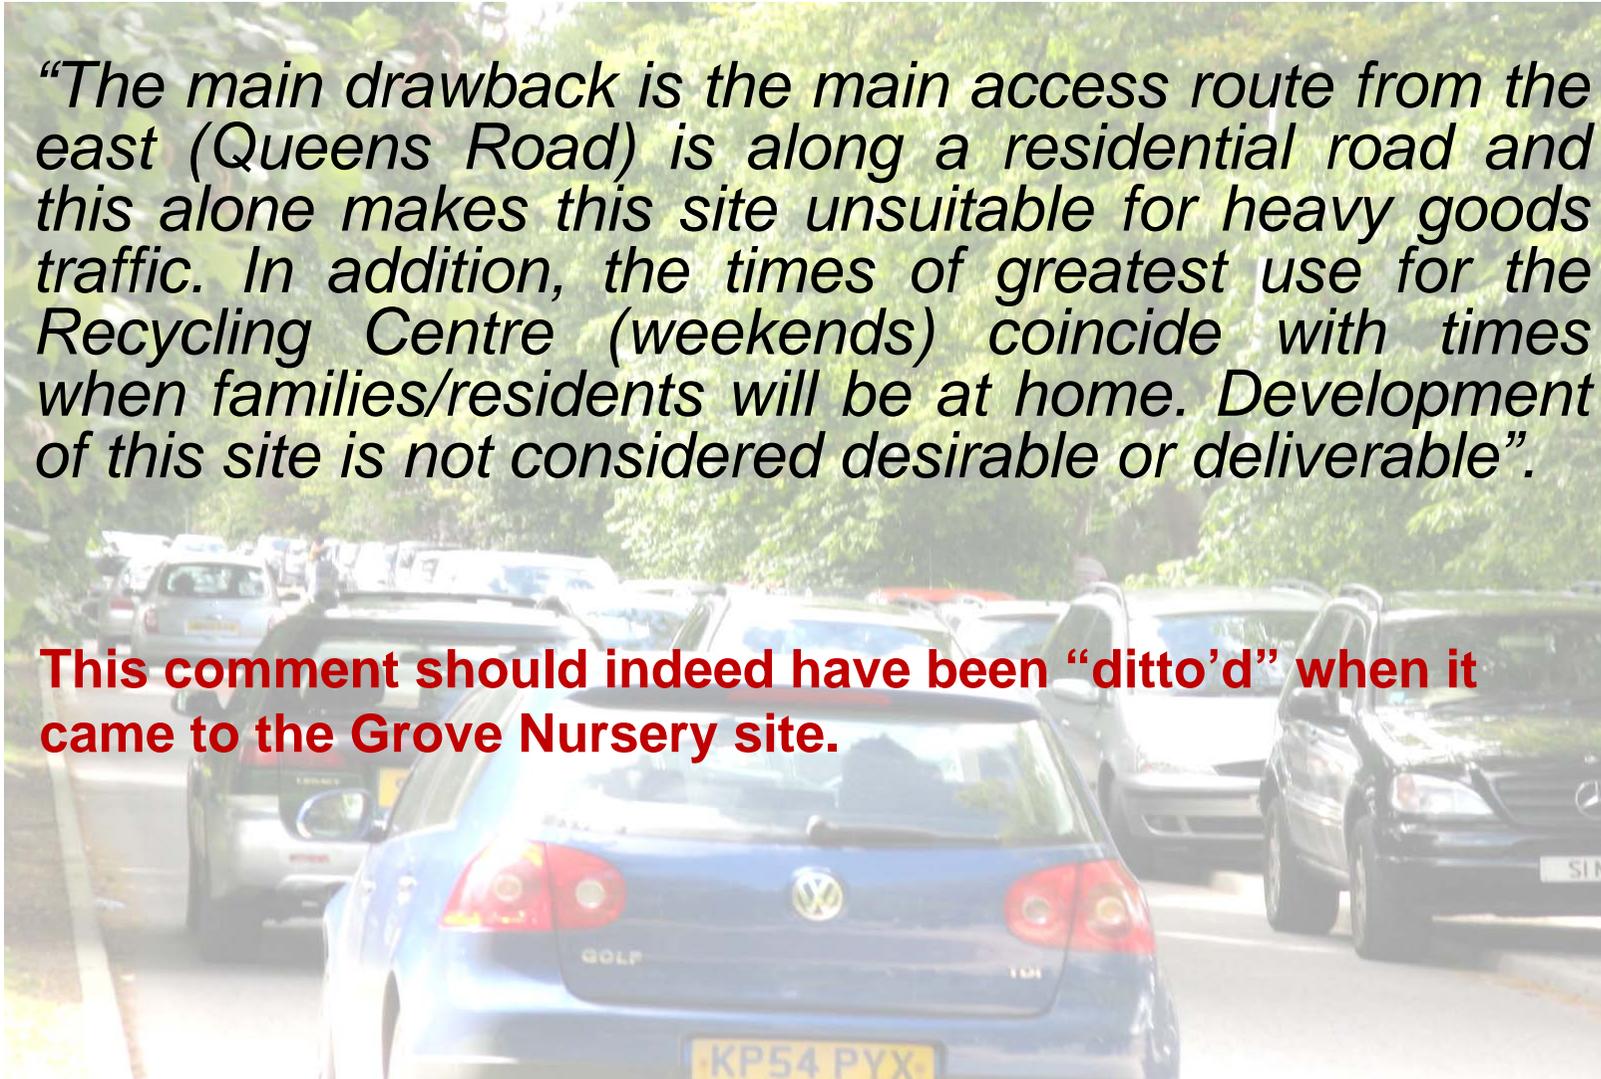

*preferred site*

...having the joint highest score of 27 – also clearly identifying **environmental issues** as of prime importance

The General Comments from the summary page for the Hazledene Road site (P381) reads:

*“The main drawback is the main access route from the east (Queens Road) is along a residential road and this alone makes this site unsuitable for heavy goods traffic. In addition, the times of greatest use for the Recycling Centre (weekends) coincide with times when families/residents will be at home. Development of this site is not considered desirable or deliverable”.*

**This comment should indeed have been “ditto’d” when it came to the Grove Nursery site.**

The General Comments from the summary page for the Grove Nursery site (P383) reads:

*“Asset Policy considers this land to have high value development potential and are not in favour of introducing this land use into the site. Planning colleagues are also reluctant to consider change of use”.*

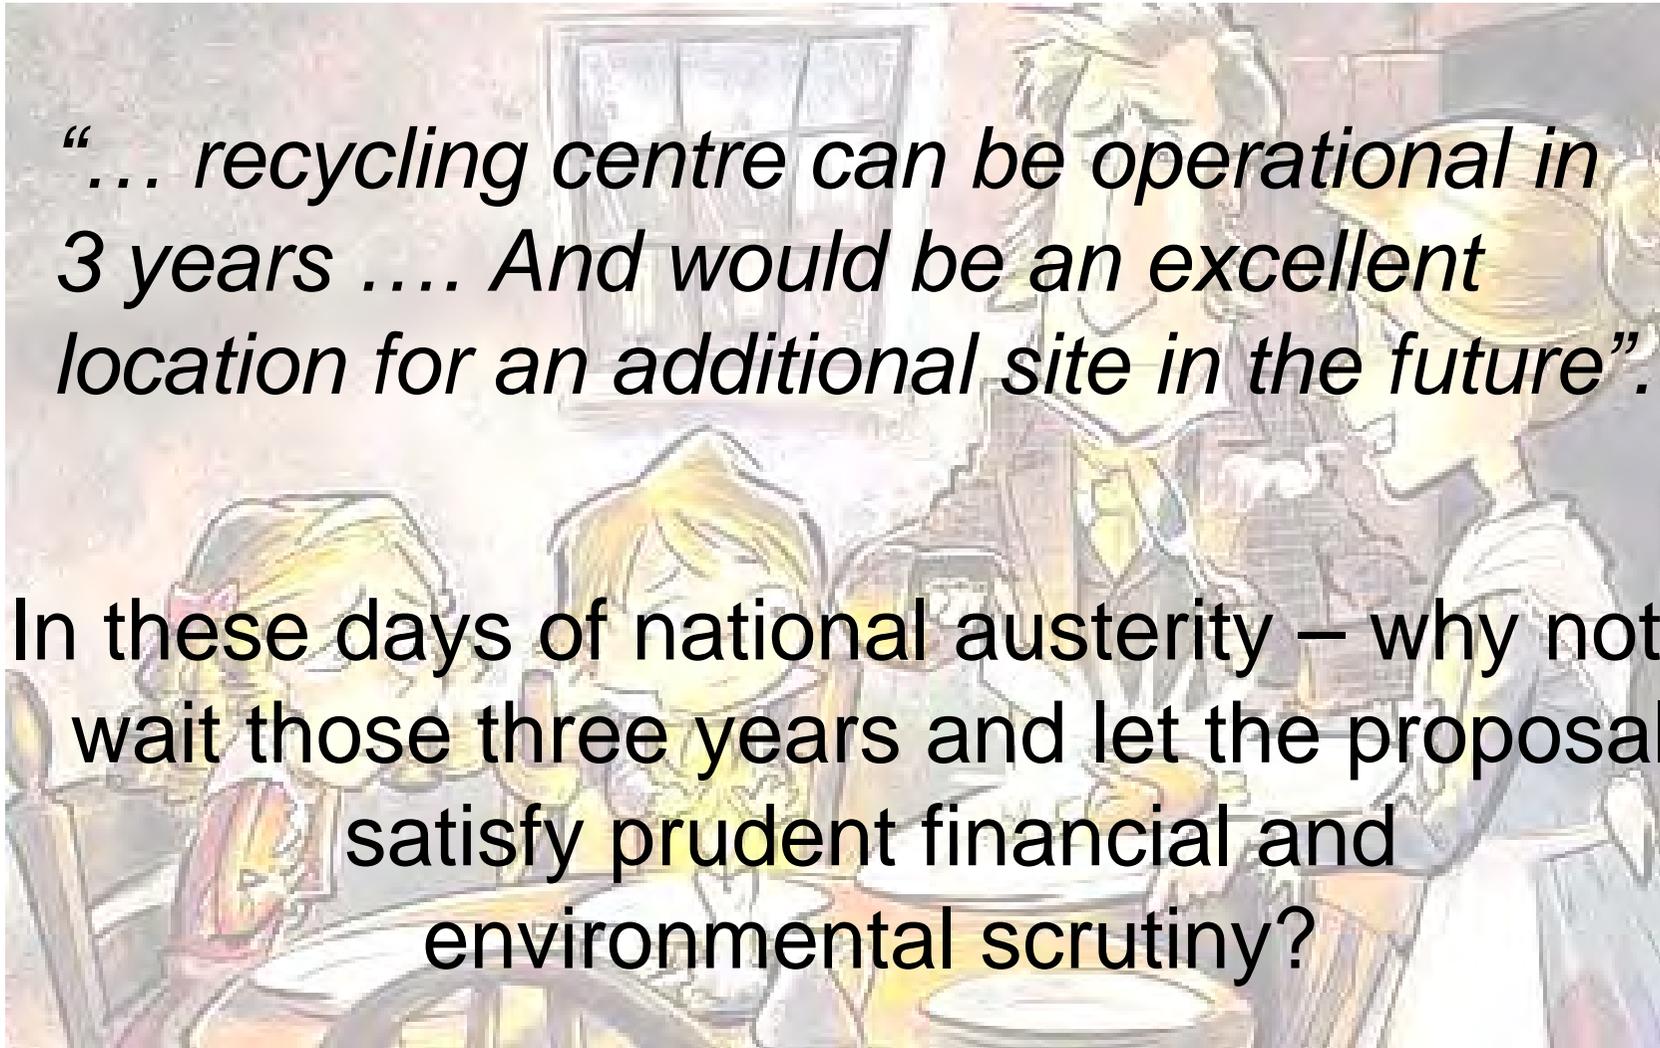

It should have therefore drawn the common conclusion:

***“Development of this site is not considered desirable or deliverable”.***

## The Greenferns site (the report suggests on P389)

*“... recycling centre can be operational in 3 years .... And would be an excellent location for an additional site in the future”.*

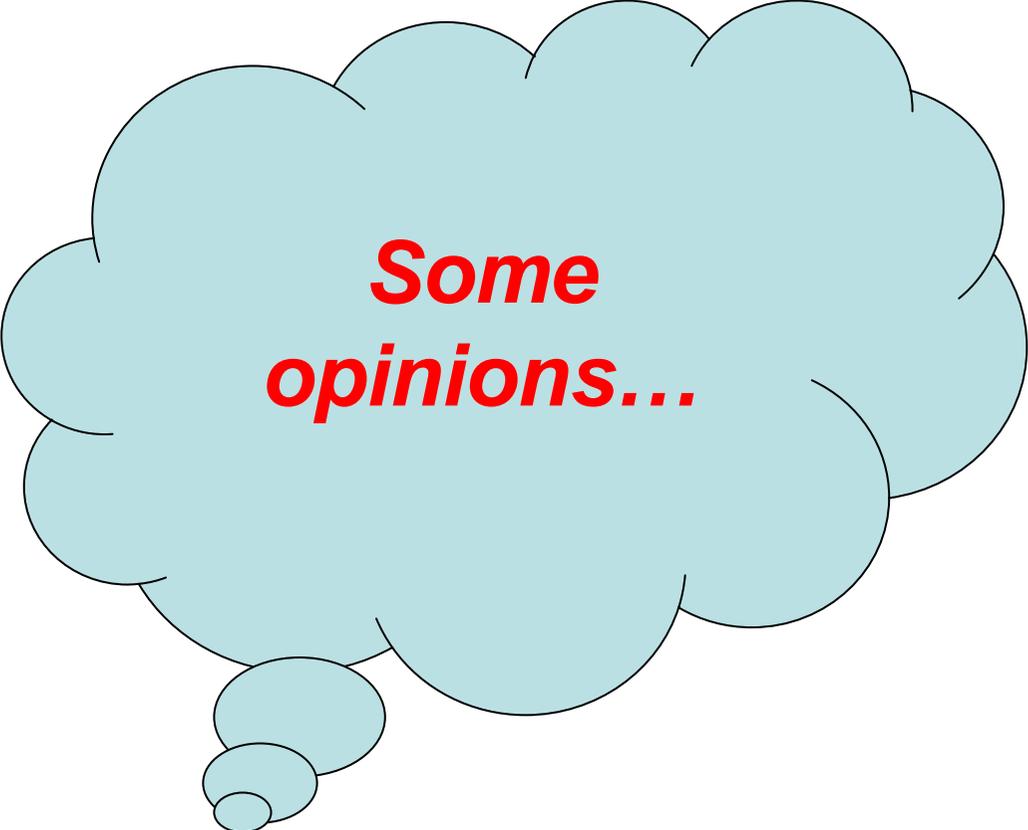

In these days of national austerity – why not wait those three years and let the proposal satisfy prudent financial and environmental scrutiny?

Oh - and by the way...

*Hazlehead Primary School was not even mentioned in the H&E/10/009 report – which was the basis of the planning committee’s upcoming vote*

***Some  
opinions...***

A supporting  
note from  
“Keep  
Scotland  
Beautiful”

**I hope that you are able to mobilise your local community to express their views on this proposed development and that your campaign helps focus attention on the effects that the development would have on the amenities in your area.**

Regards  
Anne  
Anne Strachan  
Beautiful Scotland Co-ordinator  
Keep Scotland Beautiful  
Wallace House  
17-21 Maxwell Place  
Stirling FK8 1JU

A note from  
the squirrel  
control  
officer...

We are always interested to hear about potential red squirrels sightings, so thank you for letting us know.

There are red squirrels close by, in Den Wood which is just along the road, so it may well have been a red. However there are also grey squirrels in that area too.

Please continue to let us know of any future sightings.

Kind regards

James Kennedy  
Grey Squirrel Control Officer  
Inverdee House  
Baxter Street, Torry, Aberdeen

## Small sample of people's comments...

"Too narrow roads, noise & danger to

"Have you totally forgotten about tourism! This is the wrong place – not a good advert for the city and visitors to the city"

AB15

"Terrible idea – our children travel up from Yorkshire to this park – won't if you build it!"

LS19

"Leave this area alone – we need a the spaces we

ave"

Please rethink this

an"

ple for this

A waste recycling centre of this size is totally ludicrous

ext to the park"

B32

will create lots of extra traffic and oil the park"

16

ars as a family

d this is a grave

concern for us"

AB31

"Hazlehead has always been for recreation and children"

AB32

h & safety – the sphere of the

park  
GU52

"For visitors this suggestion is a disaster"

AB44

"Far too close to the kid's play park –

"Ridiculous plan!"

AB11

People with placards and banners form a human barricade at JWS Recycling and Skip Hire Ltd on Frederick Street, Charlestown, Salford. They claim the smell and noise from the plant is making their lives a 'living hell'

Hazlehead is such a wonderful  
amenity for diverse groups of  
people

*Such as ...*

# Runners ... run...

Parents do ... “the school run” ...

School  
children...  
cross...

People ... just go to and from the park...

Equestrians... ride...

# Kids ... cycle

# Walkers ... walk...

*“Mind me please ... just crossing...”*

# Footballers .... park ... & play

# The Parks group... access and egress...

It gets busy at times...

*Umm...* this could make things interesting...

*So – we now come to the fateful  
Council Meeting of 13<sup>th</sup> April...*

Agenda Item 9.9

---

ABERDEEN CITY COUNCIL

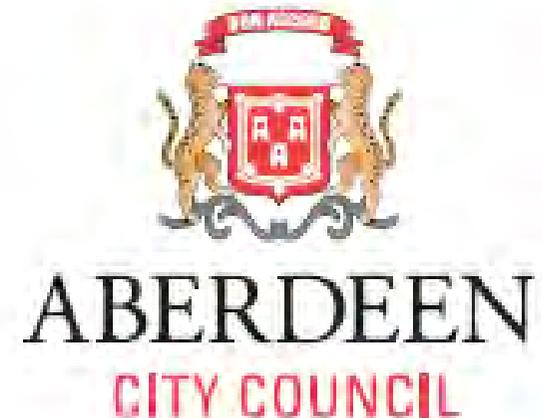

---

HOUSING AND ENVIRONMENT COMMITTEE: 13 April 2010

CORPORATE DIRECTOR      Pete Leonard

TITLE OF REPORT              Location for West of City Recycling Centre

REPORT NUMBER:              H&E/10/009

*From the:* Minutes:

## **DECLARATION OF INTEREST**

**Councillor Kevin Stewart declared an interest in the following article, by virtue of his membership on the NEM SITA Management Board. Councillor Stewart did not consider it necessary to withdraw from the meeting.**

## *From the Minutes:*

(1) that the area of the Lang Stracht was regarded as the preferred area within the west of the city, with the Whitemyres Industrial Estate seen as the best location;

## *From the Minutes:*

The report concluded that none of the sites identified satisfied all of the criteria for a recycling centre

# *From the Minutes:*

## **The report recommended:-**

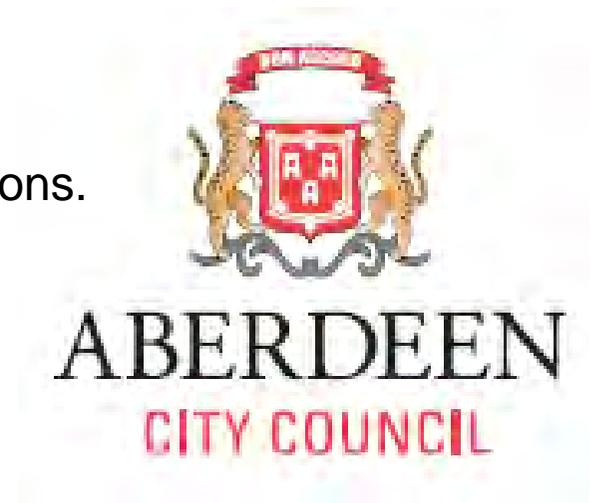

that the Committee:

- (a) approve the selection of the north west corner of the Grove Nursery site in Hazlehead, accessed from Hazlehead Avenue, as the preferred site for a recycling centre; and
- (b) recommend that the Greenfern Recycling Centre is retained within the masterplan for Greenferns and is developed as soon as roads and services are established to the site.

The Vice Convener, ***seconded by Councillor Kevin Stewart***, moved:-

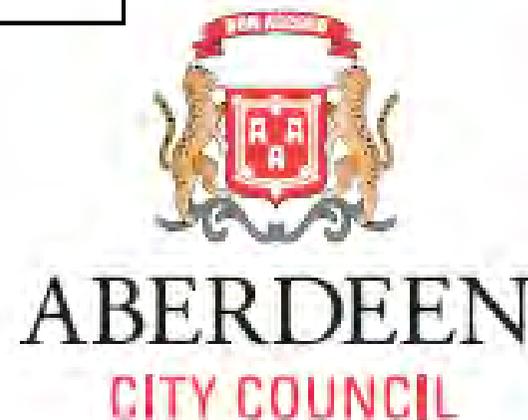

that the Committee approve the recommendations.

*This was accepted by a 10 / 5 majority*

At H&E Committee Meeting on 13th April 2010	Ward	Party
<b>Against Grove Nursery as Prospective Site</b>		
Aileen Malone	Lower Deeside	Lib Dem
Ronald Clark	Dyce/ Bucksburn/ Danestone	Lib Dem
Neil Fletcher	Hilton/ Stockethill	Lib Dem
Richard Robertson	Tillydrone/ Seaton/ Old Aberdeen	Lib Dem
Ian Yuill	Airyhall/ Broomhill/ Garthdee	Lib Dem
<b>For Grove Nursery as Prospective Site</b>		
Mark McDonald	Dyce/ Bucksburn/ Danestone	SNP
Yvonne Allan	Torry/ Ferryhill	Labour
Norman Collie	Tillydrone/ Seaton/ Old Aberdeen	Labour
Neil Cooney	Kincorth /Loirston	Labour
John Corall	Midstocket/ Rosemount	SNP
Jackie Dunbar	Northfield	SNP
James Hunter	George Street/ Harbour	Labour
Alan Milne	Lower Deeside	Conservative
Jim Noble	Tillydrone/ Seaton/ Old Aberdeen	SNP
Kevin Stewart	Northfield	SNP

*The vote split along party lines  
– surely this is far too  
important to be treated like a  
political football...?*

## *From the Minutes:*

The Convener, seconded by Councillor Yuill, moved as an amendment:-

that the Committee (1) defers the consideration of recommendation (a) to allow officers to conclude discussions with Aberdeenshire Council in order to identify a site along the Kingswells to Westhill corridor that would be suitable for the recycling centre; (2) instruct that officers report back after the summer recess on the outcome of these discussions; and (3) approve recommendation (b) as detailed above.

*This was rejected...*

## *Surely the proposition....*

*“that the Committee (1) defers the consideration of recommendation (a) to allow officers to conclude discussions with Aberdeenshire Council in order to identify a site along the Kingswells to Westhill corridor that would be suitable for the recycling centre; (2) instruct that officers report back after the summer recess on the outcome of these discussions; and (3) approve recommendation (b) as detailed above.”*

***... would have been the reasonable and sensible conclusion to arrive at....?***

As our elected Councillors there comes a time when you simply have to listen – and respect the opinion of your electorate

***Don't let history brand you the  
"Hatchet-men of Hazlehead"!***

***This can not be undone***

We all know and love this park – don't we?

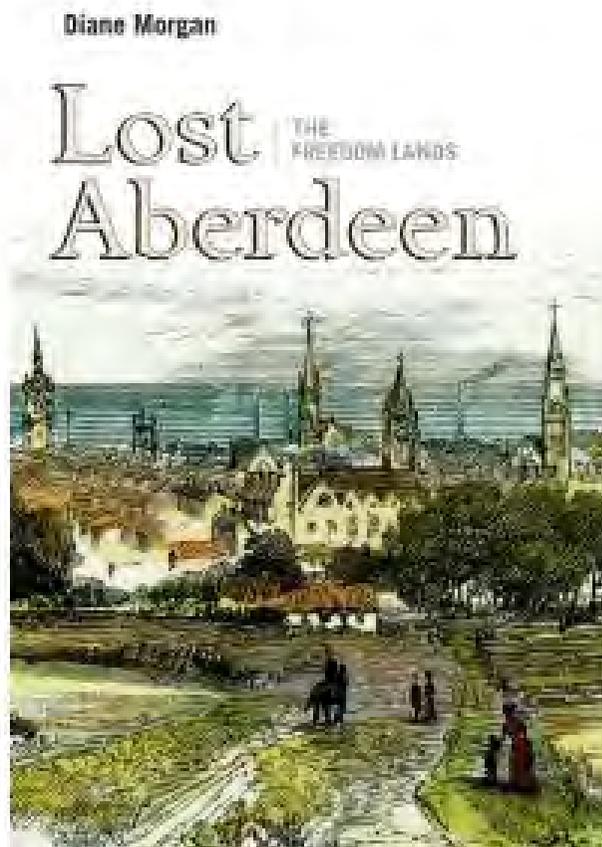

## *From the Council's own website...*

*“A park of over 180 hectares, which was originally part of the freedom lands granted to the city in 1319. The land fell into private ownership but was bought back by the council in 1920. This park is on the outskirts of Aberdeen and is heavily wooded. It is popular with sports enthusiasts, walkers, naturalists and picnickers. Around the park are football pitches, a golf course, pitch and putt course and woods for walking. The park itself has rose gardens, azalea & rhododendron borders, heather beds, a children's play area and a pets' corner. The park has a significant collection of sculpture by a range of artists and heritage items which have been rescued from various places within the city.”*

***This proposal hardly suggests responsible custodianship!***

# Hazlehead...

*was originally part of the freedom lands granted to the city in 1319 by Robert the Bruce...*

*Why not continue and give people freedom for the next 700 years?*

Finally - We're not  
against recycling –  
in fact we're  
absolutely for it –  
but – there simply  
must be a more  
appropriate site  
than the Grove  
Nursery  
Hazlehead!
