

Frequently asked questions.

So what's this all about?

We are improving your community open spaces. We hope to develop some much needed play, fitness, gardening and recreation facilities for everyone to enjoy. We're here today to talk with you and see if you can help drive this project forward.

Is this really going to happen this time?

The short answer is a resounding YES! The money has been secured and as you can see from today, the work is beginning.

When?

We are aiming to have the project completed with facilities you can use before 2012 is out. We'll keep you posted on how this is progressing.

How can I help?

You tell us? We would like as much help as possible and have a number of roles that you may be able to fill. From helping with the social media, blogging, photography, attending project meetings, being available for consultations, the possibilities are endless.

Who's paying for it?

Money has been secured via the London Marathon Charitable Trust and Kingston Town Neighbourhood from the filming fund. This has been put together into one big pot so we can make this happen.

Where will it be?

That's for you to decide exactly where but both Cambridge Gardens and the Cambridge Road estates will benefit from the scheme.

Who decides what we have?

You decide! This is a project for residents by the residents! Yes there are officers from other organisations involved to help initiate this but all the big decisions lie with you.

Will my views be heard?

Yes, so long as you're willing to tell us them! We have no intention of going gung ho and just put something in. We will be talking to residents throughout so keep your eye out for future events and be sure to come along and tell us what you think.

Can I help? I want to help?

We want you to help, so get on board! Leave your contact details with us and we'll be in touch sooner rather than later.
