20-21/058 QUESTIONS FROM THE PRESS AND PUBLIC

- Resident asked whether Clerk had heard anything about the state of the Asheldham Brook Bridge. It has all been reported with photos of state of brickwork and lack of signage. Awaiting to hear from Highways England and ECC Highways.
- Resident wanted to make absolutely sure that it is in place of and not as well as any previous application, as this happened once before and don't want a repeat. Clerk stated that as far as aware that it is only one property on the site. Documents on the MDC planning portal includes about the condition relating to the bund is still in there as has since been passed.

20-21/059 ESSEX COUNTY COUNCIL MINERALS AND WASTE

Members discussed both applications in depth and have no objections to condition 5 being utilised which makes the end date to 31st December 2020, as they are not moving any more flasks other than what has already been passed, but to request a fund for Asheldham and Dengie. **AGREED**

There is two routes – route 1 is from Latchingdon, along Mayland, Steeple etc and route 2 goes from Southminster down Batts Road turning right to Bradwell On Sea.

Concern raised about the classification of the road still being low and what would happen if either route was blocked. Change of route is at the total discretion of the driver and could come via Asheldham and Dengie, however this would be a one-off.
