

Limitations to Materials Brought On-site

Due to changing national and local regulations regarding waste, the increasing costs to the society of waste disposal and the need to ensure the health and safety of members, the following regulations were agreed unanimously at the July Committee Meeting:

- 1. Members are not allowed to bring tyres and recycled tyre material on to the site to use for any purpose.*
- 2. Before bringing any glass or windows onto the site permission must be obtained from the committee.*
- 3. Any member proposing to bring a substantial amount of material on to the site must obtain the permission of an officer of the committee.*
- 4. A member may be required to remove any materials which do not comply with these regulations or which pose a health and safety risk.*

The regulations will be enforced from today and placed before members for confirmation at the next AGM.

If you are in any doubt about anything you wish to bring on site or have delivered, please contact me or any member of the committee.

Anton Baker

Secretary
