## **Trading Hut**

We are in the process of re-instating our trading hut, a small shop, which will stock a range of compost together with other sundry items.

Our 'shop' is situated in the Community hut which is a great place to meet other plot holders, share tips and find out more about our site, so drop in for a quick coffee/ tea.

Protecting our environment will be key when ordering stock so we will only sell peat free compost and slug pellets which are organic garden approved to reduce the risk to wildlife and we will not stock any products containing glyphosate.

**The shop will be operational between 1<sup>st</sup> March and the 31<sup>st</sup> October.**

**The usual opening hours will be:**

**11am till 12.00 noon on Sunday mornings.**

Prices will be competitive as we are not aiming to make a profit, however they are subject to change with new deliveries/ stock.

Please note that at the moment we can only accept cash.

If there are items you feel we should consider for stock, please leave a note in the small black note book, with your name and plot number and I will get back to you.

**Petra - plot 45 (just beyond the container)**
