Charndon Parish Council, supports having a shop/cafe at Charndon Community Centre and have no objections to Bloom Valley continuing.

However, the Parish Council reserves the right to challenge any suspicious behaviour which threatens the safety or security of parishioners. Our key priority is the safety of the users of the facilities and that of all user groups including Bloom Valley staff. To this end the Parish Council and the Community Association are working together to ensure that there is no, one to one confrontation hot spots.
