

# We want your ideas

Are you interested in the future plans for your local children's centre?

Do you have ideas for how it could be used to continue to support children, families and the local community?

We are developing a new early help service for children and families in Buckinghamshire.

As part of this, how we use children's centre buildings in the future is changing.

You are invited to get involved and share your ideas for your local children's centre and how it can be used differently in the future – to continue to support children, families and the local community.

**Come and share your ideas on:**

**Buckingham, and Steeple Claydon Children's Centres**

**27 March, 7pm  
Buckingham Library**
