

Outdoor Free **PLAY**

Bath Area Play Project

www.bapp.org.uk

(01225) 832479

Community Play Rangers funded by B&NES will continue working across Bath in specific areas

5th/6th September until 17th/18th October

FREE After school outdoor play sessions from 3.30 - 5.30pm
will be at the following locations:

Mondays: The Firs, The Avenue, Combe Down

Tuesdays: Bath City Farm, Kelston View, Twerton, BA2 1NW

Every child has the right to play in their community and BAPP do this through the provision of various services including support for families to better understand play. Play is a positive intervention that benefits children hugely and improves family relationships.

Community Play Rangers encourage children to enjoy their childhood and have healthy lifestyles through playing actively outside in their local community. We work in all weathers, all year round and can also support parents to organise play sessions in their local parks.

Community Play Rangers are playwork qualified and DBS checked and supervise and facilitate a range of play opportunities for children and young people in parks and open spaces. Community Play Rangers do their best to keep children safe from harm as well as provide opportunities for challenge, to take risks and have fun outdoors.

Children are able to freely leave the session at any time. Where you do not wish this to happen, please explain this to your child and inform the staff. Parents should complete a Registration and Consent form before leaving their child at a session. This will provide a contact telephone number for you should we need to speak to you or contact you in an emergency.

Children may get dirty, wet and should wear old clothes and have coats in poor weather as there is often no shelter. In colder weather, make sure children wear plenty of layers and a hat!!

*"Play Rangers is epic!
"My children have so much fun out playing with you; it gets them away from screens and they sleep so much better, thank you!"*
