

Thank you for enquiring about joining our charity.

The charity was formed by me eight years ago with the intention of providing non profit first aid for charities. This was to assist charities but also schools universities, councils and companies providing events for the good and enjoyment of communities. This is still our ethos and saves groups thousands of pounds by, for instance using the money saved to the benefit of patients in a hospice. There is no-one paid in the charity and every penny raised is put back into the charity to run it. Paying for insurances adding extra equipment replacing consumables.

We have three ambulances and around 35 volunteers. The basic training consists of four days and volunteers can extend this if they wish to ambulance standard, after sufficient experience has been gained. Until training is complete volunteers still attend events as observers and learn a great deal in the field. There is no cost to volunteers in terms of training and all workwear is provided.

Training is provided alternate Mondays at either Springfield hospital or Asda at South Woodham Ferrers from 1930-2200.

Get in touch with me if you wish, and I can answer any further questions or we can meet up if you wished.
