

Elie Kirk Community Enterprise – Newsletter – December 2025

What's been happening?

- We have been awarded **£6,620 grant funding from National Churches Trust** to support the feasibility work
- **Building Condition Survey** – this has now been completed – fortunately, there were no significant findings or imminent repairs required which was very good news
- **Feasibility Study** – this has also been completed and the proposed alternative future uses for the church were deemed to be financial viability

What's Happening Now?

- **An Architect has been appointed**, and the necessary work is currently being conducted to define the plans and alterations required for the proposed future uses and to improve the energy efficiency of the building
- **Community Share offering** – we are working with Democratic Finance to help prepare the community share offering which will allow people to become members of Elie Kirk Community Enterprise through the purchase of shares. Our website has a brief summary about community shares and we will be providing more detailed information next year

What's Next...

- You can keep updated on our progress by checking out our news page on our website and subscribing to our mailing list - <https://e-voice.org.uk/ekcel/> and you can find us on Facebook – **Elie Kirk Community Enterprise**
- We are looking to expand our committee to help us as we move forward – if you would like to join us or would like more information, please reach out to us – **eliekirkce@outlook.com**
