

*People with HIV need  
their faith leaders...*

PLEASE HEAR THE VOICES OF PEOPLE  
LIVING WITH HIV

The voice of a London Christian woman  
living with HIV:

*“I chose, right from the beginning of  
my diagnosis, to keep it confidential  
and it has remained so...”*

The voice of a London Muslim man living with HIV:

*“I was judged, I was thrown out, I would speak to Imams and privately it was all OK. We’ll take care of you and support you...but publically you would see people behaving [differently]... and avoiding you.”*

The voice of a London Christian woman living with HIV:

*“... touch on it every once in a while, so that those within the community that do have [HIV] feel confident that they can approach faith leaders.”*

The voice of a London Muslim woman living with HIV:

*“When it comes to HIV I really ask leaders to...comfort those who are HIV positive and see them as a human.”*

*People with HIV need their faith leaders...*

SHOULD SOMEONE IN YOUR  
COMMUNITY BE ISOLATED LIKE THIS?

*FaithWorks can help you create safety*
