From: Gandha and Subassa

Re: The Photography Group

Possible start date: 1st April 2026

For all emails and sending in your photos use my own email zyarts2011@gmail.com for now, later I'll get a dedicated email address

The Website: e-voice have given us web space as they did for the fphc website. It's a pretty basic format but it will work for what we want. By the time I asked for a title 'the small photography group', Joe their site manager had already assigned us the url. And he gave the title **Finsbury Park Photography Group** – which I think is ok! The image/logo is courtesy of Chatgpt!

So the site name is: **Finsbury Park Photography Group**

The url to log on is: **e-voice.org.uk/fphcphotogroup/**

The site is online already

The Plan: to have a theme each month with a deadline for submission of images to Gandha. Gandha will optimise the images, as photo images are very large in file size. *But no other changes will be made to your image.* I will upload the images to the website in the Photo Album, with a different folder for each month's images.

What kind of photography? The idea with the previous group was that we didn't want the usual photo club kind of photography – we had a more abstract and quirky approach to image creation. We all used our phones but you could use a camera, it's up to you. You could crop or change the colour of your images, do weird close ups, etc. – it's up to you what you send in, **as long as it relates to the theme. There will be no judging of images, nor any competition as do other photo clubs.**

So for now --- to start us off you can send in a theme or two if you like. I reckon we could start the project at the beginning of April. Once you send in themes, Subs and I will put them in a hat and pull one out for that month. **The theme details will be posted on the events page and the noticeboard page on the website and also sent out to everyone by email.**

Don't worry if it's all a bit too much to start – it'll make sense eventually!

Cheers for now!
