

Supporting Statement for Peel Moat Public Open Space:

Off Harrow Drive, Heaton Moor, Stockport, Stockport, SK4 4SA

The existing all-weather sports pitch at Peel Moat Public Open Space has been derelict for a number of years.

Stockport MBC is looking to return the area to maintainable turf and make the pitch area open for the public again as general Public Open Space.

We are not looking at replacing the pitch elsewhere at the moment.

The planning application seeks permission to import topsoil to cap the all-weather pitch and create a mow able turf surface.

Work will be carried out during weekdays during normal permitted construction hours.

The works are expected to take approximately 6-8 weeks.

Access to the site to import soil will be gained at point A and the gang vehicle will be parked at point B or within the site, South of point A.
