Reference was made to EWR's new infrastructure and the depot that is due to be built between Newton Longville and Mursley. **Horwode Pece Management Committee - Report to Parish Council
February 2026**

As first reported back in November, two major issues remain, the repair of the parallel bars and secondly the purchase of a further delivery of rubber chippings. In addition, I will report on some on-going maintenance.

Then first, the damage to the parallel bars, which has not been fixed yet!

Following Sarah's emails to Ian Walker, he confirmed that his firm was responsible and that he would repair the damage as per the steps I had outlined. He further agreed to employ a professional fencer and take pictures at various stages through the repair, to demonstrate that the work was undertaken to these instructions. Just before Christmas, he picked up the damaged post and one parallel bar from my house, so I believed the work would start. Each week of the Rec. checks, we have watched for progress, but the work has not started!

The second issue relates to topping up the rubber chippings for both the teenage and toddler areas. I was informed by Sarah, that Monster Mulch can no longer supply the green rubber chippings in 20kg bags, but only as 500kg jumbo-bags. Sarah, therefore, asked me to look for an alternative supplier. This I did and obtained a quotation from 'Paving Superstore'. They could supply the green rubber chippings in lots of 24 x 20kg, so ordering 7 lots would give us 168kg at a cost of £3,052.00, including VAT. For this supplier delivery was included in the cost.

Sarah, later emailed saying this would have to be discussed at the February Parish Council meeting and further asked me to obtain a quote from 'Rebound'. Rebound had previously quoted us for a delivery of 20kg bags back in November. Please find attached a copy of the 'Rebound' quotation.

180 bags x 20kg = £2,797.20 (incl. VAT)
 Delivery = £ 395.04 (incl. VAT)
 Total = £3,192.24 (incl. £532.04 VAT)

Originally with Monster Mulch we had aimed to purchase 180 x 20kg bags of green rubber chippings. Although the 'Paving Superstore' quotation is marginally cheaper overall, it would only provide 168 x 20kg, so 12 x 20kg less (value £218.00). Therefore, overall, the 'Rebound' quotation seems a marginally better deal.

On-going work and outstanding maintenance work are:

- Adjusting the zip-wire tension, to obtain a seat height of 21" for a 75kg adult (Completed).
- Bond the underlay around the 'Super-Nova' before the replacement rubber chippings are laid (Completed).
- Topping-up of the rubber chippings to both the Toddler and Teenage areas, (On-going, awaiting delivery).
- Moving the paving slabs in the top field and relaying them under the VW/Audi bench at the top of the field.
- Repairing the wooden slats to the goals, again rotten.
- Replacing the rotten roof battens on the shelter.

Further:

- The rubber coverings on the climbing steps of the Pollux have deteriorated. They are over 15 years old and have worn through to metalwork in places. I need to investigate the repair of these joints; my initial inspection of the damage is that it is cosmetic and does not affect the Pollux safety.
- Some of the sloe tree branches hang over the paths. These will need cutting back sometime over winter, but this is an action that should be undertaken by the Trust.
