

Plastic bag monsters – a project undertaken by graphics design students at Kingston University, with children from the University crèche

The students (Tsai Jui-Mei, David Magnier, Norma Umer, Usma Ruhi, Sawas Savva, [Jia Tian](#), [Yeji Yun](#)) first created a story board about plastic bags taking over the world, which they showed to children in the creche.

Then the children made monsters out of plastic bags.

These were then displayed in the window of Food for Thought in Kingston Market Place.
