

The Parish Council has had requests as to where information about various subjects can be found. The following lists answers to initial enquiries, I hope it is helpful to you all.

Parish Council

Agenda and Minutes for meeting together with contact details and other information are published on our website;

www.essexinfo.net/the-hennys-middleton-and-twinstead-parish-council

Planning Applications

The Parish Council has to check for these on the Braintree DC website, this is how you can do the same.

Go to the Braintree DC website at www.braintree.gov.uk

Click on 'Search and Track Planning applications and then View Current Applications.

The search page will appear and the place name for the search is typed into the search box. A list will then appear of all applications for that area.

Pot Holes

All reports of potholes and other damage to roads has to be reported directly to Essex Highways.

Their e mail address is www.essexhighways.org

Then click on the link Tell Us about Something, a map will appear on which you click on the area in which the problem lies. This will bring up 14 options, one of which is Pot Holes and Road Surface Issues. The on-screen instructions can then be followed. There is also a whole lot of other information on the site that might be seen as useful.

Broadband

The Broadband rollout, Superfast Essex, communicates via it's website; www.superfastessex.org
