

Onslow Arboretum

Checklist and map

This list was compiled from the information given on the noticeboard in the Arboretum together with some happy hours of exploration. It does not represent the official views of Guildford Borough Council in any way.

Many of the trees in the list appear more than once, sometimes in groups, sometimes widely separated. In total the map records the position of some 253 trees.

We could not find a few of the trees listed on the noticeboard, but we did find a few not listed!

The trees we couldn't find are shown in the list in **red**. If you can point us to any of them, please contact the OVRA website at:

www.surreycommunityinfo/ovra/missing-trees

Happy hunting,

Andrew Wells
Lesley Goode
