

Please see ECC report.

I will be attending a Pylons meeting in Great Leighs, so will not be able to attend your meeting.

Please record my apologies.

National Grid Norwich to Tilbury – Statutory Consultation:

I proposed a Motion at the 14th May County Council meeting, to oppose the current NGET proposal. The motion was passed. (all groups except Labour supported it, but Labour abstained on the vote). County Council will now produce their comments based on this motion.

Chelmsford City Council were supposed to be reviewing their response at the Policy Board 11th June. However, City Council have decided that purdah requires that this meeting is cancelled, and that the response is put together as delegated power by the CEO.

Whilst I have been in conversation with the Planning dept and heritage officer, on the City Council's response, and I am satisfied that a robust opposition is being submitted, I am of the opinion that there should still be a committee meeting held. As such, this will enable the public to attend and make their comments. I have asked the Council leader if this could be accommodated, given the delay in the consultation deadline.

I arranged for Kemi Badenoch to meet with the representatives of all my Parish Councils (plus a couple more on the route), on the 17th May. For me, it is clear that Govt are driving the timescale and criteria, therefore this is not just about objecting to NG (hence my County Council Motion seeks to lobby Govt as well

Update on member Led Defects

As previously reported, I get to direct the extra defect teams for 6 weeks throughout the year. I entered a number of defects for the first round, and have just completed the second round submission.

I need a photo and a Track-It ref number, if you want me to add to future work .

<https://www.essexhighways.org/track-it>

	Signs	
1	Ford End school sign	
2	Wittle Cycling sign	
3	Ford End 40mph sign	

Woolmers Mead Drainage and Drainage issue on Grange Road

I do not have an update since my last report. I have asked for one, and if I get anything before the PC meeting, I will forward it.

Broomfield and Writtle LHP schemes agreed for funding in 24/25

- LCHE226001 – School Lane, Broomfield – SCP –addition of wig wags.
- LCHE212007 – Chignal Smealey – implementation of gateways and 40mph marking
- LCHE212015 – LW – 20mph past school + wig wags

I have also managed to get a more costly scheme approved by the Chairman's Panel:

LCHE182070	Doctors Surgery, Lordship Road, Writtle – Bus stops Pair of bus stops, raised kerbs flags/poles	Implementation
