

To the Clerk and Parish Councillors,
Hope you have all had a marvellous Christmas and New Year. We have had confirmation from SGN that the ground investigation work they had planned to do before Christmas is now due to be carried out towards the end of January (likely w/c 23rd Jan). We are posting out notification letters as attached to around 230 properties in the area who the works are more likely to have any direct impact on. Just to confirm – SGN will not be doing any highway works as part of this job at this time – all work is on private land and will be with the agreement of the owner.

With regards to the future ground investigation works in the area – we are expecting Western Power Distribution to be doing some works in the next couple of months (around 3 holes) and we will notify you as soon as we have more details from them. HS2 will also be starting its own programme of ground investigations in the area this year, which are not currently expected to start until March.
