

Thornley with Wheatley Parish Council Chairman's Annual Report 2021

May 2021

The last twelve months have been very challenging for us all. Due to the pandemic the Parish Council have had to conduct all meetings remotely allowing us to discuss necessary items of business.

Thankfully the weather last summer was great which did help us throughout lockdown.

I would like to acknowledge appreciation to all at Little Town for keeping the supply of their produce going throughout and also thanks to Ferraris who have kept their kitchens open for take out meals.

Despite not be able to arrange any fundraising events, Community Space has managed to arrange some funding to continue with the School refurbishment. The rewiring has been completed, the indoor toilet macerators have been connected and the toilet and hot water at both sinks is fully working. Some internal walls have also been re-plastered and pointed.

It does look like things might be getting a bit more customary from mid May and rumour has it that The Derby Arms will be open again at the end of May.

If restrictions continue to be lifted future meetings look like being face to face as normality slowly returns.

Malcolm Hayhurst (Chairman)
