**THREE MEN IN AN
UNTAXED WHITE FORD TRANSIT**

WICKHAMBROOK Wed. 15th July 11:00hrs

Three men were seen cutting hedges in a transit van .There have been multiple incidents of fly tipping locally recently including one of hedge trimmings . If you know the householder concerned please warn them of the risk they are taking if their hedge trimmings are subsequently fly tipped-they will be responsible unless they can show a receipt from a licensed waste carrier. IF the people doing the work cannot show you a licence , then the householder should consider retaining the trimmings until they can get one of the local licensed waste carriers to dispose of it for them, probably for a small charge . Please do not use people to carry out gardening/roofing /gutter/driveway jobs unless you know their name , address and email/phone detail . You should also endeavour to make payment through a bank so that the share of funding for the NHS, pothole repair ,waste collection etc..are contributed by such traders. Dodgy traders undercut legally compliant and insured traders and often link through to more organised crime. Success in selling their services encourages them to cold call and advertise in a way that seeks out vulnerable householders on whom, they prey and whose details are often passed on to others.

It is easy to check vehicle tax and mot status and traders with untaxed vehicles are to be avoided. If you see anything that seems suspicious regarding such activity please contact Essex Police Tel 101 or Do it Online or Live chat or call Crimestoppers .

**OFFICERS FROM OUR RURAL ENGAGEMENT
TEAM RECOVER £95,000
OF STOLEN VEHICLES**

This was in just one day.

The £40,000 asbestos decontamination unit, two Nissan Navara pick-up trucks and two Brian James trailers were recovered on 8 July. Four of the items were located within 24 hours of being stolen thanks to tracker activations, while officers spotted a fifth stolen vehicle during their patrols.

PC James Nickless says: "It's been a pleasure to be able to ring the owners to tell them we've recovered their vehicles and equipment. All were used for work so, thankfully, their owners won't have faced too much disruption to their businesses in the meantime." Trackers played a key role in several of the recoveries and James adds:

"We actively keep an eye out for stolen vehicles during our routine patrols – and we know where to look – but if vehicles and specialist equipment are fitted with a tracking device, it gives us a better chance of locating them more quickly." The thefts took place in High Roding, Margaretting, Witham and Sawbridgeworth, with the vehicles being located by our officers at sites in Great Waltham, Roxwell and Runwell.
