

With a lively and keen membership we aim to bring fun and learning to the joy of gardening.

Starting with a glass of wine (or something softer) at 7.30 our meetings offer plenty of time to chat and swap notes. Our speakers or demonstrations usually run for an hour or a little longer and we make sure there is time for discussion of local issues, swap plants or continue with questions. The meetings finish around 9.30.

We work hard to ensure a good balance between entertaining, skill based, presentations on horticulture and talks that are simply interesting or very good fun. Wherever possible the presentations include some practical element. We also have several popular social events through the year.

Guests are very welcome to join us for most events.

We meet in the hall behind St Bartholomew's Church
