

## **Our Purpose: Connecting Neighbours to Grow**

Our network of community gardeners comes together to share the inspiration, knowledge, and resources needed to create and sustain community gardens in Walworth. Through our community gardens we meet our neighbours, improve the local area, grow and share food, increase biodiversity, and support everyone's wellbeing.

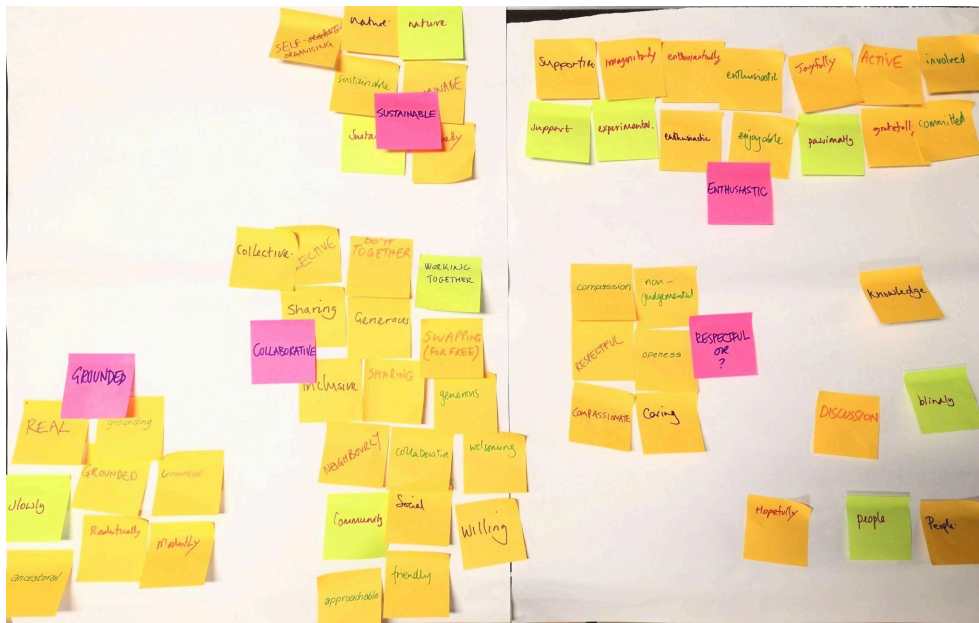

## **Our Values**

Nurturing, Grounded, Enthusiastic, Collaborative

## **Our Vision for Walworth:**

**A strong and sustainable network of community gardens that inspires others.**

Growing a network which is rich and rewarding for its members to contribute to, inspires more local people to get involved, and has a wider influence on the local area.

## Values
